

SPONSORSHIP & PARTNERSHIP INVITATION

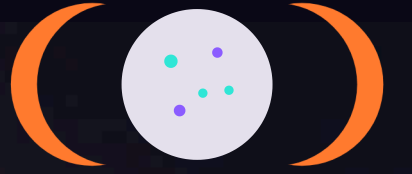

drone fire dance

HEKATE'S TORCH

A LIVE PERFORMANCE WHERE RITUAL, FIRE, DANCE, AND DRONES BECOME ONE STORY.

THE IMMERSIVE EXPERIENCE

THE MOMENT YOU WALK IN

It begins with **fire** — the oldest performance there is, the ritual that has gathered humans for thousands of years.

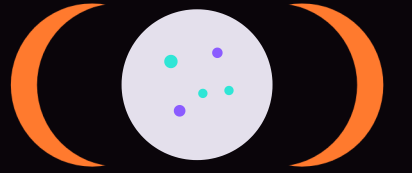

Then the **dancers** — bodies in motion, carrying flame, telling a story as old as myth itself.

And then the sky joins in. Three hundred **drones** descend, wrap around the performers, and move with them — light, image, and atmosphere woven into the story.

For forty-five minutes, an ancient goddess is rebuilt out of fire, movement, and light.

A NEW ART FORM

This performance art merges **cutting-edge technology** with ancient ritual, creating an immersive experience.

Drones and live performers interact in real-time, forging emotional connections through fire and movement,

establishing a new frontier in artistic expression that mesmerizes audiences.

THREE DISCIPLINES, ONE NARRATIVE

DRONES

Drones as **characters**, not decoration. They support the story and personify its emotion directly as an extension of the stage into the sky, an actively participating medium. Sometimes a prop; sometimes a character.

FIRE

Fire is primal. Bound to us at the most basic level — awe, warmth, survival, ritual. Fire performance taps something every human recognizes.

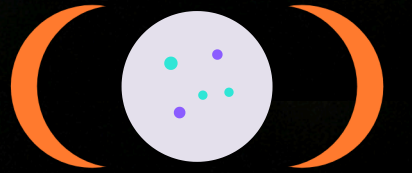

DANCE

Dance embodies the **human spirit**, merging movement with flame, creating a captivating interplay of fire and artistry.

The myth made new. Drones give an ancient ritual room to expand and take up more space than it ever has.

A UNIQUE AUDIENCE EXPERIENCE

Designed meticulously, audiences will experience a captivating performance, whether from the back, mid-field, or close-up, ensuring a **memorable encounter** that leaves them wanting more with each iteration.

Closer than anyone gets to drones. Audiences experience the sound, light, and motion of the fleet at a proximity traditional shows never offer — fascination up close.

You didn't just see a show;
you saw *that* show, once. It's why people come back.

INNOVATING DRONE TECHNOLOGY

This is not just a show; it's a **new frontier**. Our team collaborates directly with drone manufacturers to advance technology, allowing seamless performances where drones launch and land silently, enhancing the experience while redefining the art form.

We are building the next generation of the art form and inviting partners to stake an early claim in the shaping of it.

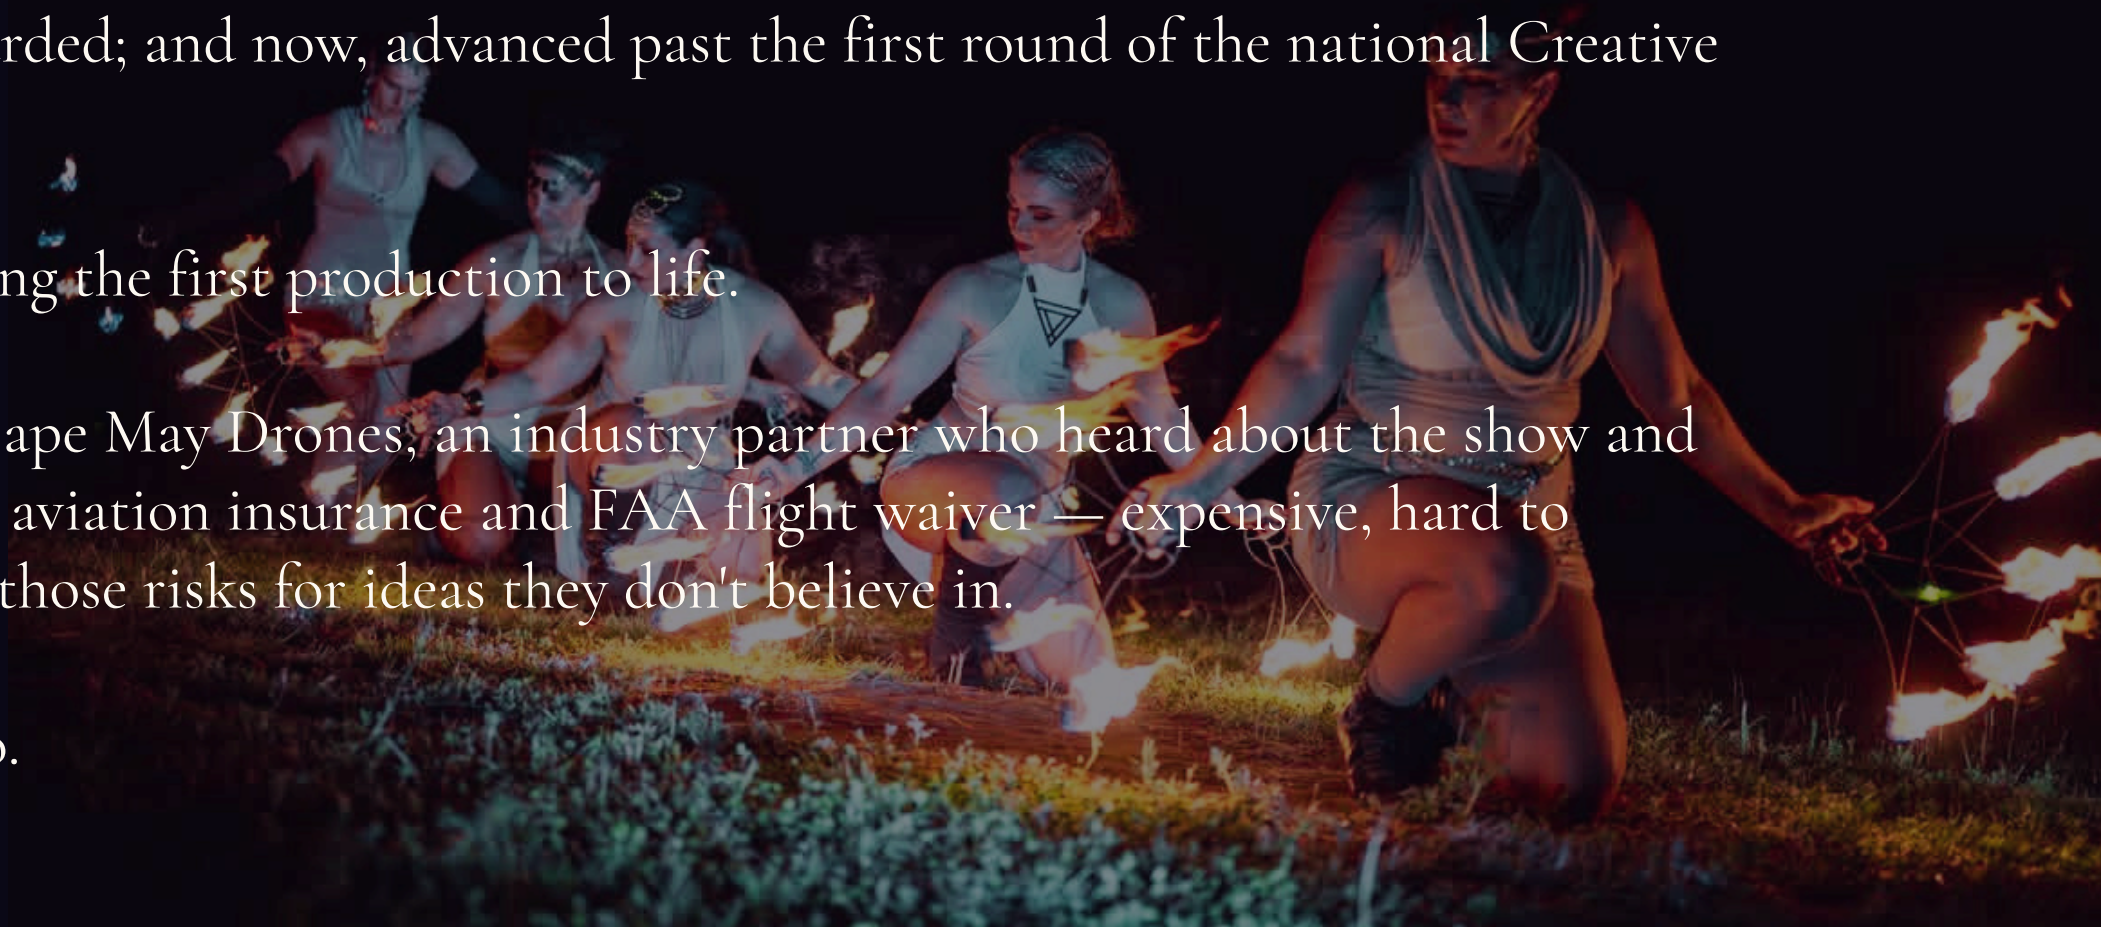

PROVEN SUCCESS

PRODUCTION STATS

- **Two productions completed:** A filmed 40-drone proof of concept, then the full live show: two ticketed performances at Pioneer Farms, Austin — 200+ paying attendees from in- and out-of-state, against a packed event weekend.
- **300 drones, 5 performers, 15-person crew** — executed safely, on schedule, on budget, zero major incidents.
- **Fully permitted.** Fire permitting, event permitting, and drone flight permitting secured — a genuine feat, and a roadmap we now own for every future show.
- **Grant-validated, twice over.** City of Austin Nexus Grant awarded; and now, advanced past the first round of the national Creative Capital grant, under active consideration.
- The **community funded** it. Crowdsourced support helped bring the first production to life.
- The **industry believes in it.** The drone fleet was donated by Cape May Drones, an industry partner who heard about the show and asked to be part of it. Adhoc Creative House contributed the aviation insurance and FAA flight waiver — expensive, hard to obtain, and a serious assumption of liability. Peers don't take those risks for ideas they don't believe in.
- **Audiences returned.** Multiple guests came back for night two.

COMMUNITY ENGAGEMENT

Audiences are not mere spectators; they are part of an **immersive experience** that fosters connection. Their enthusiasm creates a community, drawing volunteers eager to contribute. This extraordinary art form inspires rich visuals and generates lasting relationships, making every event unforgettable.

The fire and the dancers give the technology a body and a soul.

WHY FUND THIS

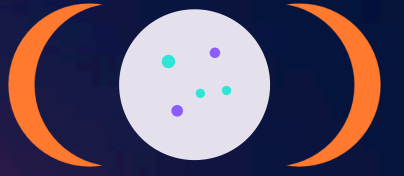

Funding art is about **impact and innovation**. This unique experience captivates audiences, connecting them to primal elements.

By supporting us, sponsors will be recognized among the pioneers of a new art form that intertwines technology, performance, and community engagement.

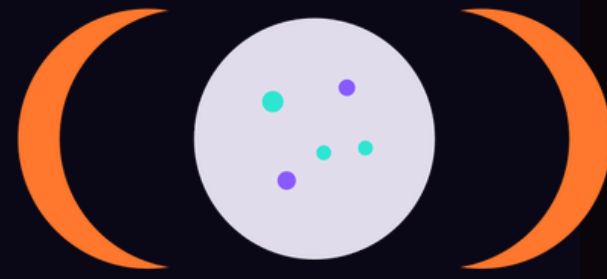

**The forefront of arts intersectionality:
technology, performance, ritual, and myth in one experience.**

ENABLING SUSTAINABLE GROWTH

Your partnership empowers us to transition from **bootstrapped brilliance** to a thriving creative company. This funding supports fair compensation for artists, expands our productions, and enhances the immersive experiences that define Drone Fire Dance, reaching broader audiences.

PARTNERSHIP LEVELS AND OPPORTUNITIES

Our sponsorship tiers offer a range of opportunities to align with Drone Fire Dance, from **exclusive presenting sponsorships** to community partnership roles. Each tier provides unique benefits to enhance visibility and engagement.

INVEST IN A NEW ART FORM

Join us as we pioneer this innovative experience, with options to support specific aspects of the production. Your involvement not only amplifies the art but also builds community connections and lasting impact.

TIER	DRAFT LEVEL	SPOTS	VISIBILITY
Hekate's Circle (Presenting)	\$15K–25K+	1 — exclusive	"Hekate's Torch, presented by you." Your name on the frontier.
Torchbearer	\$7.5K–10K	2–3	Name a tier, installation, or the market. Major presence.
Flame	\$2.5K–5K	limited	Strong brand presence + a real on-site moment.
Ember	\$500–1K	open	The accessible local-business / individual-business tier.
Founding Patron	\$1K+ (individual)	limited	For people, not brands — be a founder of a new art form.

THE PEOPLE BEHIND IT

TEAM EXPERTISE

Kacey Samiee

Creator, director, performer; professional drone pilot and designer with credits across major events

Nebula Collective

Creative production and drone choreography partner

AdHoc House

Drone operations, permitting, aviation safety and insurance

Sage Jacote

Fire operations and safety expert

Impulse Built

Ground fire effects and LED performance props

COLLABORATIVE NETWORK

Dancers and AV team

Extensive production support crew.

Community engagement and volunteers
